«Master Classes in Transplantation and Hematology (MATH)[®] : Advances in Immunotherapy»

AGENDA

Dear Friends and Colleagues,

It is a great pleasure and privilege to invite you to attend MATH 2017 (Master Classes in Transplantation and Hematology (MATH)[®]: Advances in Immunotherapy) to be held in Paris, France on

Friday 20 January 2017

In the last few years, we have seen huge advances in the field of immunotherapy with or without stem cell transplantation.

With this background, this symposium will review the current challenges in this domain. Current advances with respect to different immunomodulatory drugs and cellular effectors will be discussed, and preclinical and clinical data supporting the development and integration of immunotherapeutic approaches will be presented.

The main objectives are to:

- Provide an update on the current understanding of immunotherapy from the mechanistic standpoint
- Assess the most recent evidence on the role of immunotherapy in different diseases

This symposium is expected to be a great success, reflecting the exciting developments and achievements in the field. We trust that the chosen topics will allow you some intense interactions with your peers and induce new creative ideas for the future

We are looking forward to your active participation.

Sincerely,

Pr Mohamad Mohty, MD, PhD
President, EBMT

10:00 WELCOME COFFEE

KEY NOTE LECTURE

10:30 - 11:10 Immune check-point inhibitors
M.A. Perales, USA

SESSION 1 - PHARMACOLOGICAL IMMUNOMODULATION

Chair: N.C. Gorin

11:10 - 11:35 Hypomethylating agents in MDS
I. Yakoub-Agha, France

11:35 - 12:00 HDAC inhibitors in AML
J. Cornelissen, The Netherlands

12:00 - 12:25 Monoclonal antibodies in ALL
A. Nagler, Israel

12:25 - 12:50 FLT3 inhibitors in AML
A. Bazarbachi, Lebanon

13:00 - 14:00 LUNCH BREAK

SPECIAL LECTURE

14:00 - 14:40 Optimal conditioning for haplo-identical transplantation
M. Mohty, France

SESSION 2 - CELLULAR THERAPIES

Chair: J. Kuball

14:40 - 15:05 Redirecting T cells using bispecific T cells and CAR T cells
M. Hudecek, Germany

15:05 - 15:30 Gamma-delta T cells in lymphoid diseases
J. Kuball, The Netherlands

15:30 - 15:55 NKT cells in GVHD
F. Malard, France

15:55 - 16:20 TK cells for enhanced immune recovery
A.L. Ruggeri, France

16:20 - 16:30 Conclusions and meeting adjourn
M. Mohty, France
